

Mr. Frederick H. Mueller
Chairman, CEP Committee on U.S. Economic Defense Policy

Marshall M. Smith
Chairman, Staff Committee on U.S. Economic Defense Policy

Report on Assignment to Staff Committee on U.S. Economic Defense Policy

Pursuant to the assignment given at the February 10, 1959 meeting of your Committee, a number of meetings have been held to discuss the various points covered in my memorandum of confirmation to you dated February 11, 1959. The results of our deliberations are attached. Represented at the meetings were:

Department of State
Treasury Department
Department of Defense

Additionally, the Staff Committee solicited and secured advice from the Central Intelligence Agency.

Also attached for your and your Committee's consideration is a draft report summarizing the conclusions of the Staff Committee with respect to the various points covered by the assignment. While I am sure your Committee will wish to review the somewhat detailed material covering each of the several points, I believe that you will find the summary adequately sets forth the important points which have led to the conclusions contained in the draft report and which may be found satisfactory as a part of your Committee's report to the Chairman of CEP.
